PROFILE

AI & ML Engineering student with strong programming, data analysis, automation, and software development skills. Experienced in developing data-driven applications, visualization dashboards, and machine learning solutions. Passionate about solving engineering problems through analytics, automation, and artificial intelligence.

TECHNICAL SKILLS

Programming Languages: Python, C

Data Analysis & Visualization: Excel, Power BI, Streamlit, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Databases: MySQL

Machine Learning: Supervised Learning, Regression, Classification, Random Forest

CS Fundamentals: DBMS, DSA, OOPs, Operating Systems, Computer Networks

Tools & Platforms: Git, GitHub, Visual Studio Code, Canva

PROJECTS

AI-Based Student Dropout Prediction and Reporting System Python, Machine Learning, Random Forest, FPDF, SMTP

- Built an AI-based system that analyzes academic and behavioural data to predict student dropout risk and probability using a Multi-Output Random Forest Regressor.
- Automated personalized PDF report generation and email notifications to students, mentors, and parents for timely intervention.

AI-Powered Crop Advisory System Integrating Soil Analysis and Weather Forecasting Python, Machine Learning, React.js, FastAPI, REST APIs, IoT

- Built an AI-based crop recommendation system that analyzes soil NPK, weather, and environmental parameters to recommend suitable crops and assess their sustainability.
- Integrated IoT sensor and real-time weather data with machine learning models and a React.js dashboard through RESTful APIs for data-driven recommendations.

CERTIFICATIONS

- Programming with Generative AI — NPTEL
- Cloud Computing and Distributed Systems — NPTEL

EDUCATION

Bachelor of Engineering (B.E.), Artificial Intelligence and Machine Learning

HKBK College of Engineering, Bengaluru

2023 – 2027

CGPA: 8.45

Pre-University Course (PCMB)

Karnataka Public School, Sundarpalya

2021 – 2023

Percentage: 86%
